

SALUTORY

In making its initial appearance THE TONOPAH DAILY BONANZA desires to express the hope that it will serve a useful purpose and will attain for itself in the community a position worthy of the most fastidious. No trouble or care will be spared in the preparation of a sheet that will be a newspaper in every sense of the word.

It will be its earnest effort to present to its readers such items, both local and foreign, which will be of general interest. Its position will be that of a proper medium to bring in touch of all the citizens of Tonopah, the daily events transpiring in the outside world. News that is news and of a nature that is presentable, will appear daily in the columns of the BONANZA. We desire to antagonize no one but will endeavor to present, truthfully, frankly and impartially, all such items as we think should be published. We shall strive, at all times, to avoid disagreeable controversies, as we have no prejudices to accentuate our motives or personal ends to gain. Our motto shall always be "Fairness, Integrity and Progression."

As member of the Associated Press we will be in close touch with all events transpiring throughout the world, and will be in a position to present accounts of all happenings to our readers each morning, twenty-four hours, at least, before any other paper enters Tonopah.

In conjunction with the DAILY BONANZA, we will continue the weekly publication which, for the most part, will be devoted to the mining interests of Southern Nevada.

We sincerely trust that in inaugurating a daily edition, which can be read each morning, we will warrant the hearty support which heretofore has been so freely extended, and no effort on our part will remain unmade to merit the highest confidence of the entire community.

OUR POSITION

After careful consideration and upon the advice and urgent request of the foremost and prominent representative people of Tonopah and the Southern district, I am presenting the daily issue, which they asked me to do two years ago.

The reason I did not issue a daily before this publication is simply this: I had labored zealously from the first issue of the TONOPAH BONANZA, the FIRST paper ever printed in Tonopah to give the people a weekly publication with all the mining news, without branching out into a daily by placing a plaster upon my plant. Thank God, today, I make this venture and am alone. For every line in the TONOPAH DAILY BONANZA that appears each day I will personally responsible. There is not an individual or a corporation that can control one hair on the head of Billy Booth; I am fearless, and money cannot purchase me; I write as I talk; I am making this venture with my OWN capital, and thank God I own my own plant, my own paper, The TONOPAH DAILY BONANZA, and no individual, clique or corporation can control a line in in any issue. I publish this statement which will stand as long as I live.

W. W. BOOTH,

Proprietor Tonopah Daily Bonanza.

A CRYING SHAME

The Tonopah Railroad—soulless corporation of today—that was heralded a little over two years ago, at the arrival of the first train, with great pomp and splendor, to the accompaniment of booming cannons and loud huzzas, by every man, woman and child in Tonopah. Mr. and Mrs. Jim Butler, God bless them, joining in the jollifications. Great Tonopah, and today greater Tonopah, has recently seen a change. Mr. Brock, President of the road, after the resignation of Mr. Tripp, engaged and brought to Tonopah a Mr. Hedden, from some place in the East, it matters not from what place. Mr. Hedden came here and he thought (but he has another thought) that he was A. I. He brought out with him his own force, foremost an insulting chief clerk, for whom every one has a deep abhorrence. Then he (Hedden) imported a lot of five-cent eastern clerks to take the place of those who were here and knew the conditions of this section. All of the employees under Superintendent Tripp, each and every one of who were gentlemen; it was a pleasure to meet and do business with. This condition no longer exists. Today, on entering the office of the railroad, one is reminded of the devout Celestial going before his Joss and is expected to bump his head upon the floor. This is the condition that exists today. Hedden's chief clerk seems to think he is a little tin God, but some day a good punch in the nose will make him look like a souvenir of the San Francisco fire. Mr. Hedden applauds the actions of his five-cent eastern clerks. The sooner Mr. Brock and his much sooner will the Tonopah Railroad Company be properly managed, associates place a Western man and Western clerks in charge just so our people are being flim flammed every day by the railroad and the Tonopah BONANZA will call attention each day to their Jim Crow methods. The advice of the BONANZA is to Mr. Brock, ship out another car load of eastern clerks and then close up shop. Otherwise the people of Tonopah will close their faces for them.

Through a combination of circumstances, over which we had no control, we have been obliged to postpone the first issue of the Tonopah Daily Bonanza until this morning. For some unaccountable reason the Associated Press dispatches were nearly six hours late in arriving, and to add to our troubles the Linotype machine, at the critical moment displayed several cantankerous tricks. Everything has been remedied and our patrons can positively count upon the regular appearance of this paper henceforth.

Henry Group.

Situated in the Bellehelen mining district and on the mother lode of the Kawich range is the Henry group of twenty-one claims, one of the best properties yet found in this district.

On the group fully thirty-five well defined ledges have been uncovered and all assay from \$3.80 to \$612.55 to the ton.

One ledge, the main one, is 35 feet wide and shows an average of \$26.65 to the ton on the surface. This ledge can be traced for fully 1 1/2 miles and in places specimens have been pulled off that show free gold and horn silver.

Below the mines is a natural townsite, and just above is a basin that drains three different canyons, the outlet is in solid rock three feet wide at the bottom, and at the top (about forty feet high) about thirty feet wide which makes a natural reservoir that has a capacity of storing millions and millions of gallons of water.

Captain Henry, the original loca-

tor, leaves today and will establish a winter camp immediately.

Three men are at present doing the assessment work, and the Captain believes that inside of thirty days he will be shipping rock that cannot be equalled in the State of Nevada.

Order Your Coal and Wood.

The Tonopah and Goldfield Fuel and Feed Company are doing a flourishing business these days. They have coal and wood sufficient to supply several camps and are reasonable in their prices. Their telephone number is 483. Call them up and place your order.

We hear nothing but favorable comment upon our Compound Syrup White Pine for coughs and colds. We make it ourselves and only from the purest drugs obtainable. The Miners Drug Store, Inc., Golden Block.

Furnished rooms to let by the day, week or month—apply at the Bonanza Lodging House, Brougher avenue, next door to the Brokers' Exchange.

NEW THEATER FOR TONOPAH

\$50,000 PLAY HOUSE PLANNED ALL THE LEADING PRODUCTIONS TO APPEAR

Thomas Phillips, stage manager for Sleeping Beauty and the Beast, Humpty Dumpty, Mother Goose and many other prominent spectacular productions, arrived in Tonopah last week from New York. Mr. Phillips makes this trip for the special purpose of securing a plot on Main Street and to erect a modern play house.

The cost of the new theatre, Mr. Phillips figures, will be between \$50,000 and \$60,000. The construction will be most modern and every convenience known to playdom will be employed on the stage. Mr. Phillips is figuring on a stage large enough to meet the requirements of the largest productions on the boards.

The interior of the play house will be most artistic and no effort will be spared to make it the acme of comfort. Mr. Phillips states that the opportunity for a first class theatre here is great and he expressed himself as being much surprised that the matter had not been taken up before.

The idea is to give two productions a week and arrangements will be made to bring all the leading plays of the country to Tonopah.

It may be expected when the new theatre is completed, to see Maxine Elliott, Blanche Bates, Grace George, Mrs. LeMayne, Wilton Lackey and many other stars in Tonopah.

Mr. Phillips has long been associated with theatrical ventures. For five years he was stage manager of the famous Frawley Company in San Francisco. This is the company for which Eugene Schmitz, the present mayor of San Francisco for a long time, was musical director.

There is no reason whatever why the enterprise should not succeed. In the early days of the Comstock all the leading productions appeared in Virginia City and why should not the leading companies of today play in Tonopah?

This announcement will no doubt be hailed with much pleasure and the people of Tonopah will not be lacking in their support to Mr. Phillips in his undertaking.

Sometime Saturday night or early Sunday morning thieves broke into the Metropolitan Meat Market on Main Street and secured the entire contents of the cash register.

As Saturday is a heavy market day and the proceeds of the day's sales were in the till, the robbers made a good haul.

C. M. Squiers, the proprietor, went to his shop Sunday morning and discovered the theft.

Access was gained by breaking in the rear door.

The police department knew nothing about the matter until it was reported by Mr. Squiers. The only clew they have to work on is a railroad spike and a pick left behind by the intruders.

Borneman—George.

Monday at noon was celebrated the marriage of Fred Borneman of Tonopah to May George of Carson. The ceremony was performed by the Rev. Mr. Johns at the residence of A. J. McKenzie. Mr. Borneman is a native of New Jersey, but is at present engaged in business in this city. Mrs. Borneman is the daughter of Mrs. S. M. George. The wedding was very quiet, the only persons present besides the principals were one or two intimate friends of the groom and the bride's mother. Mr. and Mrs. Borneman will make their home in Tonopah.

Good Boy, Doc.

Doc. Turner of the Oro y Plata was the first to realize that in getting out the first issue of the Daily Bonanza, the printers would need a little stimulants, and accordingly presented the office with a case of beer. The gift was highly appreciated and the effect most salutary. Good boy, Doc., may the good work be continued by other public spirited citizens.

Property Reported Bonded.

Reports have been received of the bonding of copper properties in Saline Valley by G. Sanger, the owner. Tonopah people are the other parties in the transaction and it is said they have made a cash payment of \$6000. Things are looking very good in the Saline country, and the deal may be but a harbinger of even greater results to be obtained in the next few months.

ABOUT THE MO-HAWK ROBBERY

AMOUNT STOLEN LESS THAN FIRST REPORTED—THIEVES STILL AT LARGE

Last advices from Goldfield state the thieves that looted the ore house of the Hayes-Monnette lease are still at large and it is very doubtful if the stolen ore is ever recovered.

All possible steps have been taken to catch the looters, but ore like currency is hard to identify once it leaves its owner.

The forty-seven odd assay offices will no doubt prove an easy means of disposing of the plunder.

It is more than likely that the ore will be secreted until the excitement subsides and will be disposed piecemeal through some of the local assay offices.

Amount of ore secured was 5 or 6 sacks with a value of about \$12,500.

Knew His Rights.

A prospector on the Mojave desert recently held up the Los Angeles limited on the Salt Lake road in order to secure water for himself and his faithful burros. Although the train was running at a high rate of speed the prospector did not hesitate to make it stop in order to obtain a supply of water which he was in sore need. After securing a good supply he started on his way while the train continued on its trip to Los Angeles. Under the provisions of an old law of this State, desert travellers are permitted to stop trains when they are in distress. This old prospector merely exercised his prerogative under the statute and the train crew were only too glad to respect it.

Dr. W. J. Nelson, who has been here several weeks has left for San Francisco. Dr. Nelson represents some of the largest moneyed men of New York and Los Angeles.

All new barbers at the Mizpah barber shop. Wilson, that's all.
